

# BANDIT

**Age:** Juvenile

**Sex:** Male

**Type of Dingo:** Alpine

**Colour:** Ginger

**Companion:** Koda

**Year of Arrival at the Sanctuary:** 2017

## **Background:**

I was born at the Dingo Discovery Sanctuary and Research Centre

## **About:**

I am a very sweet and gentle boy. I love being fussed over and will patiently wait my turn for attention (unlike some other dingoes!). I am named Bandit because when I was a cub, I had a very 'Zorro'-esque mask marking on my face, though the only things I steal are people's hearts.

## **Other Info:**

My father was a Black and Tan dingo, meaning I likely carry the black and tan gene - a recessive but natural gene found within the dingo population.
