

BANXIA

Age: Juvenile

Sex: Female

Type of Dingo: Alpine

Colour: Ginger

Companion: Winta

Year of Arrival at the Sanctuary: 2020

Background:

I was found as an orphaned cub in Northern NSW by some good humans. They then arranged for me to safely make the long road trip to the Dingo Discovery Sanctuary and Research Centre.

About:

It took a little while to find my way at the Sanctuary but have settled in well! It's going to take some time but I enjoy it here and there's so much to learn!

Other Info:

I was found in similar area to Barkala who also now lives at the Sanctuary... and we both have an eagle shape scent gland on our tails! This may indicate that we come from the same family line.

Checking out my surroundings!

I can hear you!
