EXCURSION

Want to experience the work of our sanctuary first-hand? Come visit us!

Excursions are only run July 1st - February 28th

Excursions typically run for 1.5-2 hours, and begin with a presentation about our sanctuary and the ecological importance of dingos. After the presentation, one of our friendly ambassador dingos will give a live demonstration of the differences between dingos and dogs. We will then move to the exercise yards, where students will spend 15 minutes watching our furry-friends do their dingo thing. This is a great time to ask questions, so get those gears turning! The session concludes with some stories from our volunteers, and a browse through the gift shop.

Duration: 1.5-2 hours per session, limit of 1 session per day.

Operation: Tuesdays and Thursdays from 9:00am.

Capacity: Strictly 15 attendees per session (including staff).

Requirements: Own transport. The sanctuary is only suitable to mini buses, vans or cars. The sanctuary is not accessible via public transport. Attendees must wear closed toe shoes, long pants and clothing that can get dirty (more information is available on the website). Age limit 7yrs+.

INCURSION

Dingos are home-bodies, but our humans love educating far and wide!

Our dingoes can travel hundreds of kilometres by foot, but they aren't so enthusiastic about cars. Our humans are though! Our one-hour sessions cover topics such as Indigenous significance, specialised anatomy, Pre- and post-European history, ecological niche, social behaviour and threats. Our videos will demonstrate the differences between dingo's and dogs, and highlight a dingo's super senses! Students will have the opportunity to win some dingo merch during the session, as well as being presented with a plush dingo to keep as a class pet.

Time: 60 minutes per session, no session limit per day.

Operation: Tuesdays from 9:00am

Capacity: No audience size limit

Requirements: A presentation space/classroom, HDMI compatible projector/screen, microphone if needed. Please let our staff know if you do not have access to any of this equipment.

ONLINE PRESENTATION

A little too far for us to (din)go?

Our online presentations are perfect for any institutions who are a little too far away for our team to travel to, or who may may be unable to accommodate an in-person session. Each 1-hour presentation goes in-depth on Indigenous significance, specialised anatomy, ecological niche, social behaviour and threats. Presentations are supported with videos or live dingo demonstrations (available on selected days). The session concludes with 15 minutes for questions - our presenters love fostering curious and creative minds, so bring on the tough questions!

Time: 60 minutes per session. Limit of 4 sessions per day.

Operation: Thursdays from 12:00pm AEST

Capacity: No audience size limit

Requirements: Zoom account, good internet connection, compatible device (e.g. phone or laptop), projector/screen, microphone and speakers, webcam if desired.

WORKSHEET PACK

Want to get your paws dirty?

Our worksheet packs are perfect for anyone wanting some hands-on content for students to reflect on and explore the topics discussed in our presentations. Purchase this pack as an add-on to your session, and we'll provide you with printable activity pages tailored to your class level.

\$20

PER PACK

PRICE LIST

PRESENTATION PACK

Looking for something a bit more DIY (Dingo Information Yourself)?

If you'd like to educate your class on the amazing abilities of dingos but can't quite squeeze one of our sessions in, then you can purchase a copy of our presentation with speaker's notes. Dingo education should be accessible to all! We also highly recommend reading on below, as our team always aims to find inclusive arrangements for all situations.

\$50

PER PACK

CUSTOM CONTENT

Got something else in mind? Just howl-ler!

We believe education should be accessible to all, and aim to advocate for our beloved *Canis dingo* at every opportunity. We hope to foster everyone's desire to learn, and build a community of 'Wandi Warriors' all over the country.

If our packs aren't quite suited to your budget, time or resource constraints then please reach out to our team. We will do our best to come up with a program that suits your needs so that everyone has the opportunity to learn.

If your class is currently focusing on a particular topic (eg. Trophic cascades, current ecological issues, veterinary studies, environmental careers, etc) then please let our team know - our presenters can easily alter the presentation to match your focus.
